

2016 PROSPECTIVE PRODUCT CONTENT LABEL¹
50% PA WindPower from WGL Energy

PA WindPower from WGL Energy matches 50% of your estimated electricity usage. In 2016, PA WindPower will be made up of the following new renewable resources averaged annually.

Green-e Energy Certified New ² Renewables in PA WindPower 2016		Generation Location
-Biomass	0%	
-Geothermal	0%	
-Small or low impact hydroelectric	0%	
-Solar	0%	
-Wind	100%	100%: PA
Total Green-e Energy Certified New Renewables	100%	100%: PA

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current average mix of resources supplying the PJM Interconnection includes: Coal (37.6%), Nuclear (35.4%), Natural Gas (22.4%), Wind (2.0%), Hydroelectric (1.0%) and Other (1.5%). This resource mix was prepared in accordance with the PJM Environmental Information Services website: <http://www.pjm-eis.com>. The PJM Interconnection is a regional transmission organization (RTO) that coordinates the movement of wholesale electricity in all or parts of Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia and the District of Columbia.

The average home in the United States uses 911 kWh per month. [Source: U.S. EIA, 2014]

PA WindPower from WGL Energy is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at www.green-e.org.

2016 PROSPECTIVE PRODUCT CONTENT LABEL¹
100% PA WindPower from WGL Energy

PA Wind Power covers 100% of your electricity usage, and is composed of 100% wind energy. A percentage of this product's renewable content, listed below, is satisfied by renewable portfolio standard (RPS) state-mandated renewables that also meet Green-e Energy eligibility rules. 100% of the product's renewable electricity content is Green-e Energy certified.

From January 1, 2016 to December 31, 2016, PA Wind Power will be made up of the following new renewable resources averaged annually. The proportion and generation location of the Green-e Energy eligible mandated renewables differs based on where the customer is located and the RPS rules in that state.

Green-e Energy Eligible New² Renewables in 100% PA Wind Power

Resource Type	Voluntary Renewables	Voluntary Generation Location	Green-e Energy Eligible Mandated Renewables	Green-e Energy Eligible Mandated Generation Location	Total Green-e Energy Certified New Renewables
Wind	94.5%	100%: PA	5.5%	100%: PA	100%

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased.
